

Talcor® OGP-6

Product Data Sheet

Customer benefits

- Transparent lubricant film makes it easier to inspect gear flanks.
- Can be dispensed without heating, through conventional spray lubricating systems
- Surpasses the scope of the FZG Test, thus providing excellent lubrication under boundary load conditions.
- Excellent adhesion on the gear flanks and easy drainage from gear guards.
- Shear stable synthetic thickeners ensure good mechanical stability whilst in service without packing in the gear teeth roots.

Applications

- Designed specifically for use on exceptionally heavily loaded, slow moving open gears that calls for solids free lubricants

Product features:

TALCOR OGP-6 is an adhesive, Open Gear Lubricant free of bitumen, graphite, molybdenum disulphide and other heavy metals. Highly refined base oils and stable synthetic thickeners compounded together with high performance enhancing additives, provides a transparent lubricant film on the gear flanks.
